

REEFER TERMINAL

The Reefer terminal in Port of Koper is the fastest developing reefer terminal in the North Adriatic; it has over fifty years of experience in providing a flexible client oriented service in handling & storage of various goods with un-broken cold chain requirements in :

- bananas,
- various fruit & vegetables,
- chilled & frozen food and
- various foods & pharmaceuticals.

With its skilled and experienced team, the terminal is performing a rapid, reliable and high quality service 24/7/365 in accordance with ISO 9001, ISO 14001, ISO 22000, BSOHSAS, EFQM, HACCP and ECO standards in coordination with the neighbouring Container terminal, which is ensuring priority in delivery of arrived reefer containers directly to the Reefer terminal for immediate stripping.

The Port of Koper has the status of a Border Inspection Post (BIP) for goods bound to the EU. Most of the goods are customs cleared prior delivery to final receivers throughout Europe - from UK to Scandinavia. Regular deliveries are made even to Moscow. Customs formalities and inspection controls are effectively organised to allow smooth deliveries of arrived goods during weekends like any other working day. The Koper port excellent road and rail connections with the hinterland market, excellent cooperation with other Koper port community participants and continuous improvements of container lines with direct services in import/export with many oversea markets are enabling the Port of Koper to continue its growth as the Container leader in Adriatic sea, as well as increasing the volumes of import/export reefer cargo. Reefer terminal offers cold storage warehouses, deep freezing cells and ripening cells for bananas & other fruit with IT controlled temperature, humidity & air circulation.
